

IN A NUTSHELL.

ABOUT.

We are a marketing company with a commitment to helping the earth.

Our employees, with their years of experience in the marketing industry have noticed that the overall focus of marketing has only been on the product. We've felt that it was time for a change. Together we've joined to create a company that decided not only to focus on great marketing, but also to be environmentally conscious.

SERVICES.

- **Web development & design**

Whether you need a site redesign or a whole new site, Eco Integrated can help. We also do mobile phone Web sites, landing pages and personalized Web sites. If you're interested in search engine marketing or optimization, we do that too.

- **Online marketing**

Staying on the cutting edge of online marketing is just another one of our many specialties. Twitter, Facebook and YouTube are just a few of the places your company can benefit from being on. We can get you there and on all the other places too.

- **E-mail marketing**

With over 5 years of e-mail marketing experience we can make sure your e-mail reaches your target audience. The criteria starts at consumers or businesses and the list goes on from there.

- **Mailing lists**

The perfect mailing list is hard to come by. You'll be sure to get a list that will keep you coming back for more with our wide range of database expertise.

- **Direct mail**

While direct mail is not always the most environmentally friendly, we use the latest in "green" technologies to make sure the consumer is the only one that gets a lasting impact.

- **Design**

If you're in need of just a print ad, company branding or any other design related service, we can have it to you in no time.
